

TIPS

1. Color picture on the outer packing is final finishing picture, pls follow it to manufacture.
2. Pls prepare tools, like scissors, straightedge, screwdriver and ect.
3. Pls cut material according to template to avoid mistake.
4. Small deviation among different batch of wood material, cloth and beads is inevitable, pls understand.
5. Children should be accompanied by adults to manufacture.
6. Refer to below operation to test if the bulbs work or not.

Connect conducting wire on the battery with hand directly is not allowed.

Testing bulbs must be connecting battery box, wrap the connection with tape.

A Package

(Unit:CM)

Proportion (1-3) A18 Wood (dark green) 13,140,745.3 (2pcs)	Proportion (1-4) A2 Wood (light yellow) 25,242.5 (2pcs)	Proportion (1-4) A3 Wood (light yellow) 13,141,745.3 (2pcs)	Proportion (1-4) A4 Wood (light yellow) 13,141,745.3 (2pcs)
Proportion (1-3) A19 Wood (dark green) 13,140,745.3 (2pcs)	Proportion (1-4) A5 Wood (light yellow) 25,242.5 (2pcs)	Proportion (1-4) A6 Wood (light yellow) 13,141,745.3 (2pcs)	Proportion (1-4) A7 Wood (light yellow) 13,141,745.3 (2pcs)
Proportion (1-3) A20 Wood (dark green) 13,140,745.3 (2pcs)	Proportion (1-4) A8 Wood (light yellow) 25,242.5 (2pcs)	Proportion (1-4) A9 Wood (light yellow) 13,141,745.3 (2pcs)	Proportion (1-4) A10 Wood (light yellow) 13,141,745.3 (2pcs)
Proportion (1-3) A21 Wood (dark green) 13,140,745.3 (2pcs)	Proportion (1-4) A11 Wood (light yellow) 25,242.5 (2pcs)	Proportion (1-4) A12 Wood (light yellow) 13,141,745.3 (2pcs)	Proportion (1-4) A13 Wood (light yellow) 13,141,745.3 (2pcs)
Proportion (1-3) A22 Wood (dark green) 13,140,745.3 (2pcs)	Proportion (1-4) A14 Wood (light yellow) 25,242.5 (2pcs)	Proportion (1-4) A15 Wood (light yellow) 13,141,745.3 (2pcs)	Proportion (1-4) A16 Wood (light yellow) 13,141,745.3 (2pcs)

B Package

(Unit:CM)

Proportion (1-3) B1 Wood (dark brown) 5,342,340.2 (1pcs)	Proportion (1-3) B2 Wood (dark brown) 5,342,340.2 (1pcs)	Proportion (1-3) B3 Wood (dark brown) 5,342,340.2 (1pcs)

C33 Yellow-blue grid cloth cutting template (1:1)

Round table template

C Package

(Unit:CM)

Proportion (1-3) C1 Big white wire (square mesh) Length 1.8 (1pc)	Proportion (1-3) C2 Medium transparent film Length 1.8 (1pc)	Proportion (1-3) C3 Small golden tube Length 2 (1pc)	Proportion (1-3) C4 Big transparent PVC tube Length 2 (1pc)	Proportion (1-3) C5 Golden bead Diameter 1.8 (1pc)
---	--	--	---	--

C32 Yellow-red-green striped cloth cutting template (1:1)

Iron art chair seating cushion

Bar chair seating cushion

D Package

Proportion (1-3) D1 White rain coffee table Length 1.8 (1pc)	Proportion (1-3) D2 Pineapple bread Length 1.8 (1pc)	Proportion (1-3) D3 Big puff Length 1.8 (1pc)	Proportion (1-3) D4 Small puff Length 1.8 (1pc)
Proportion (1-3) D5 Breakfast (sugar mix) Length 1.8 (1pc)	Proportion (1-3) D6 Small puff Length 1.8 (1pc)	Proportion (1-3) D7 Lemon bar Length 1.8 (1pc)	Proportion (1-3) D8 Egg roll bar Length 1.8 (1pc)

C45 White non-woven cloth cutting template (1:1)

C21 Dumb silver paper cutting template (1:1)

Appearance manufacturing instruction

1. Cut out paper A21-5 and A21-6, take out wood material A2 and A3.
1. Stick floor paper on, dig white glue on the side of A1, put white glue on the side of A2.
2. Stick paper A21-5 on wood material A2.
3. Stick floor in the groove of A2.

Cake tray template

C45 White non-woven cloth cutting template (1:1)

C21 Dumb silver paper cutting template (1:1)

Connect battery and wire

Battery sticking steps: keep the battery includes switch upwards, aim at switch hole of floor and stick well.

Wire connecting tips: for droplight and round table, both grey wire must be connected with battery black wire, while wire connected with red wire, them wrap up the connecting point with tape.

Upgrade version manufacturing instruction

Notice: Below transparent film and music microchip are upgrade version material, please manufacture under the instruction.

1. Translucent film (1.8x14.5x0.12 (2pcs))
2. Translucent film (1.8x14.5x0.12 (2pcs))
3. Translucent film (1.8x14.5x0.12 (2pcs))
4. Music microchip (1Pcs)

4. Stick wood material A3 in the middle of A2-A6, stick them as photo shown.

1. Cut out paper A21-2 and take out wood material A5, put some white glue on the side of A5.

2. Stick A21-2 on A5.

1. Cut out paper A21-3 and take out wood material A4, put some white glue on the side of A4.

2. Stick A21-3 on A4.

1. Cut out paper A21-4 and take out wood material A6, put some white glue on wood color side of A6.

2. Take out A6 which pasted with wall paper and take out wood material A10 and A11.

3. Stick A10 and A11 as photo shown, stick C1 white decorative border on, A6 is completed.

Appearance manufacturing instruction

1. Take out wood material A15, cut out A27 thick transparent film as photo shown.
2. Bring C42, C3, C14 and C2 with A22 as photo shown, stick well to complete droplight.
1. Take out the already finished A15 and stick with droplight as well as A23 white wire.

1. Cut C39 in length 5.5cm and cut them into pieces.

2. Fold and bend as photo shown.

3. Fold and bend as photo shown.

4. Cut C39 in length 13.5cm one piece, bend symmetrically as photo shown.

5. Bend symmetrically as photo shown.

6. Bend symmetrically as photo shown.

7. Bend as photo shown.

8. Refer to the instruction and bend the iron wire as photo shown.

9. Put the chair legs as photo shown, bend four corners slightly.

10. Complete iron art chair.

Welcome signboard manufacturing instruction

Business License manufacturing instruction

Iron art chair manufacturing instruction

1. Cut out paper A21-7 as photo and take out C45.

2. Connect two droplight wires, grey wire connect together and white wire connected together, fold A21 white wire in half and cut out two pcs, then connect with grey wire and white wire respectively, be a knot on grey wire to test it's tight, so as to distinguish positive and negative pole, drop light distribution is completed.

1. Take out wood material A17-A20, cut out paper A21-13 and A19 white paperboard.

2. Stick wood material A17, A8 and A9, cut out C1 white wave decorative border.

3. Stick A16 well as photo shown, stick C1 white wave decorative border on, A17 is completed.

1. Take out wood material B29-B32, manufacture as photo to complete cake cabinet.

2. Connect two droplight wires, grey wire connect together and white wire connected together, fold A21 white wire in half and cut out two pcs, then connect with grey wire and white wire respectively, be a knot on grey wire to test it's tight, so as to distinguish positive and negative pole, drop light distribution is completed.

Blackboard manufacturing instruction

Worktop manufacturing instruction

Shelf manufacturing instruction

1. Cut out paper A21-16~A21-16-2, and cut out business license template one pcs of A28.

2. Stick A28 as photo shown, stick A29 as photo shown.

3. Stick A28 as photo shown to complete business license.

1. Take out wood material B29-B32, manufacture as photo to complete cake cabinet.

2. Connect two droplight wires, grey wire connect together and white wire connected together, fold A21 white wire in half and cut out two pcs, then connect with grey wire and white wire respectively, be a knot on grey wire to test it's tight, so as to distinguish positive and negative pole, drop light distribution is completed.

Bar counter manufacturing instruction

Bar counter manufacturing

Shelf manufacturing instruction

1. Take out wood material B29-B32, manufacture as photo to complete cake cabinet.

2. Connect two droplight wires, grey wire connect together and white wire connected together, fold A21 white wire in half and cut out two pcs, then connect with grey wire and white wire respectively, be a knot on grey wire to test it's tight, so as to distinguish positive and negative pole, drop light distribution is completed.

1. Take out wood material B29-B32, manufacture as photo to complete cake cabinet.

2. Connect two droplight wires, grey wire connect together and white wire connected together, fold A21 white wire in half and cut out two pcs, then connect with grey wire and white wire respectively, be a knot on grey wire to test it's tight, so as to distinguish positive and negative pole, drop light distribution is completed.
